

WINTER ACTIVITIES

The Hermitage Club at Haystack Mountain has **revolutionized** the East Coast by returning to classic, **uncrowded**, family-friendly New England skiing. We pamper our runs with 100 percent snowmaking to assure “first tracks” conditions all day, all season long. Sharpen your skiing, snowboarding, freestyle and racing techniques in one of our world-class development programs, available for children and adults. Tour our winter haven on 15 miles of cross-country trails, or jump on a snowmobile to explore more of our mountain. If you’re up for an **exhilarating** experience, our lighted tubing hill’s 500 ft. vertical drop is sure to get your heart pumping! Take a spin on our ice rink for a change of pace. When you feel like just sitting back and **relaxing**, experience the joy of a horse-drawn sleigh ride through our snowy woods during the day or under the moonlight.

There’s so much to do, you’ll wish winter was a couple of months longer.
